**DRONE** Baits are the original saltwater spoons. They were designed and tested in the early 1900's by a fisherman for fishermen. Because of the impressive fishing record of **DRONE** Baits, it is little wonder that this is one of the most copied lures in existence. But in spite of this copying, there is no other lure with quite the erratic, strike-bringing action of the **DRONE**. This feature alone has made it a world standard for the past 85 years. **ORIGINAL DRONE** Spoons are made of solid, highly polished stainless steel that is totally unaffected by water conditions anywhere in the world. There is no plating to corrode, chip or peel. Hooks are of the highest quality forged Mustad O'Shaughnessy pattern, with filed hollow points, and Duratin plated. We guarantee these hooks against breakage. The rings are solid nickle silver and are hand silver soldered for greatest strength.

# DRONE PLANERS

Now you can get your lure down really deep without huge sinkers. In the trolling position your lure goes down at a 45° angle. When a fish is hooked your DRONE Planer returns to the surface, allowing you to fight your fish without a load of lead on your line. The DRONE Planer works with any kind of line, such as wire or monofilament. The smaller the diameter of your line the deeper it goes. See the illustration above, which shows the suggested method of rigging a DRONE Planer.

DRONE PLANER SIZES		
Size	Blade Size (in.)	Weight (oz.)
#1	2 1/2 x 1 5/8	3
#2	3 x 2	3
#3	3 7/8 x 2 7/8	4
#4	5 1/2 x 3 1/2	8
#4HS	5 1/2 x 3 1/2	8
#5	6 x 4 1/4	8
